

Smoke Outlook for 8/01 - 8/02
Crater Lake Area Timber Crater 6 and Timber Crater 10
Fires

Issued at: 2018-08-01 13:31 UTC

Outlook for Crater Lake Area

Special Statement

Numerous fires are contributing to poor air quality in the area. Avoid exposure when possible by limiting outdoor activities. Consider relocating to cleaner air if possible.

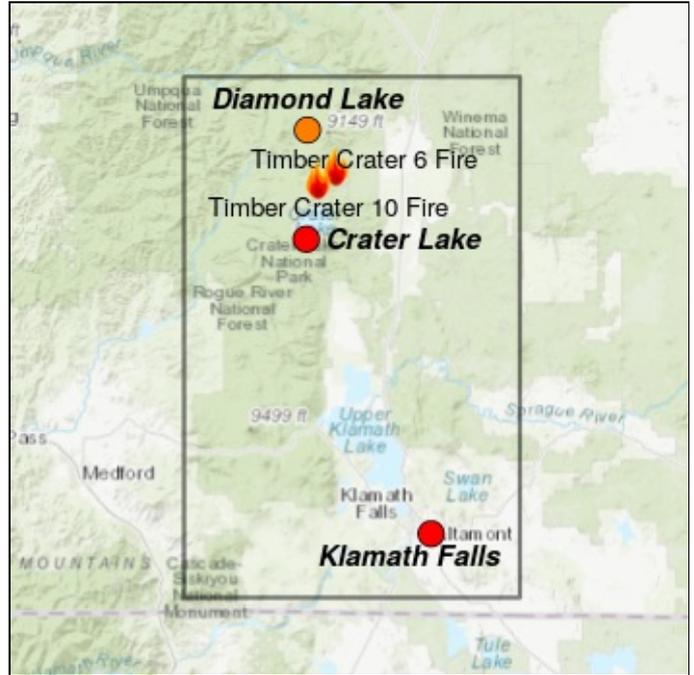

Fire

Fire activity on the Timber Crater Fires should be minimal in thanks to ongoing fire fighting efforts. Potential new starts and other fires in the area are anticipated to burn actively. If wind speeds increase, significant fire growth is probable.

Smoke

The Timber Crater Fires will continue to produce minimal smoke for the next few days. Numerous fires in the area continue to burn and contribute to widespread smoky conditions over the larger geographic area for the foreseeable future. There is a chance that conditions may improve on Thursday with the possibility of a wind shift, due to a passing cold front.

Daily AQI Forecast for Aug 01, 2018

Station	Yesterday hourly	Tue 7/31	Forecast Comment for Today -- Wed, Aug 01	Wed 8/01	Thu 8/02
